

Microsoft 365 Business Standard

If you're considering the cloud and the benefits it could bring to your business, then Microsoft 365 Business Standard (formerly Office 365) may be the place to start.

Microsoft 365 Business Standard (formerly Office 365) provides businesses with the ability to run a number of critical services from the cloud. Providing you with hosted email, use of the latest versions of Microsoft 365 Apps at all times, Microsoft Teams, SharePoint and data management, all from within a simple, single service.

Of course different businesses will benefit from different aspects of the Microsoft 365 Business Suite and that's why there are a number of plans to choose from, and we are here to ensure you select the most appropriate for you.

Moving to Microsoft 365 Business Standard will negate the need to constantly upgrade your IT, saving you time and money. If you are considering the Cloud for your business, looking at changes to your email system, or considering alternative ways to manage and fund your Microsoft licensing, why don't you contact us and we will be happy to discuss the solutions available to you, helping you to make the right decision for your business.

Benefits of Microsoft 365 Business Standard include:
